The court may assign related actions to a single district judge and magistrate judge. *See* LR 42-1(a). The district judges assigned to these cases have determined that efficiency and consistency will be promoted by assigning the cases to a single magistrate judge, and by assigning one district judge to hear the parties' appeals of and objections to the magistrate judge's rulings on non-substantive motions (e.g., discovery and pre-trial issues). Each district

1 judge will retain their assigned cases for trial and will rule upon substantive and trial-related  
2 motions.

3 IT IS HEREBY ORDERED that all of the above-listed cases are transferred to Magistrate  
4 Judge Weksler. All appeals of her orders and all objections to her reports and recommendations  
5 on non-substantive issues will be heard by District Judge Dawson.<sup>1</sup> All future filings in these  
6 cases shall bear Case No.: 2:18-cv-\_\_\_-\_\_\_-BNW, as appropriate.

7 Dated: November 26, 2019.
